# sleep on it

The **Judy Ross Textiles** pillow collection pairs centuries-old chain stitch techniques with contemporary design: each pillow is embroidered by hand using the finest three-ply New Zealand hand-dyed wool. The Arbor pillow, shown here, features small, dense stitches that offer movement, texture, and durability. [www.judyrosstextiles.com](http://www.judyrosstextiles.com)

The patent-pending Bedfrok and Bedsok pieces from **Andrew Morgan** are designed to replace a traditional bed skirt and decorate the boxspring while coordinating with any guest bedroom design. Bedsok and Bedfrok are easy to take on and off, come in a range of sizes, and are made from an eco-friendly polypropylene fiber. [www.morgancollection.com](http://www.morgancollection.com)

Tencel+Plus Lyocell Eucalyptus fiber pillow and duvet inserts, selections from the Living Fresh collection by **Valley Forge Fabrics**, improve sleep through easier breathing and cleaner, softer products. The first hospitality bedding of its kind, its blend of eucalyptus and cotton promotes relaxation while actually absorbing moisture and releasing it away from the body, resulting in fewer allergens and a cool, dry sleep. [www.valleyforge.com](http://www.valleyforge.com)

**Sealy Global Hospitality's** Next Generation Posturepedic mattress line is made with pre-compressed, high-density foam to reduce body impressions and features titanium alloy innersprings that are 10 percent stronger than previous models. Firm, plush, and Euro pillow top options are available. [www.sealyhospitality.com](http://www.sealyhospitality.com)
